

Surface Mount Kit

Installation Instructions

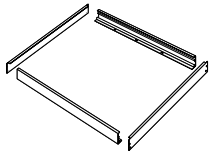

For 1'x4', 2'x2', and 2'x4' sizes. Compatible with LED Light Panel and LED Volumetric Troffer products.

2' X 2' Model Shown

WHAT COMES IN THE BOX

The Surface Mount Kit comes with the following parts:

(1) Frame - 4 Piece

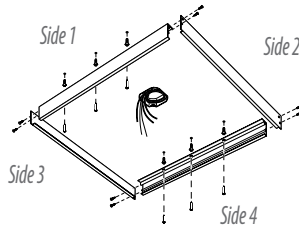

Ceiling Anchors and Screws

2x2 = 6 sets

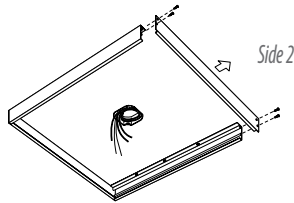

1x4 & 2x4 = 12 sets

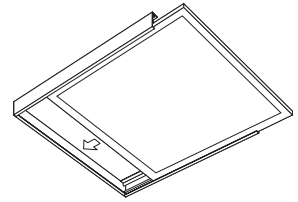

(8) Frame Screws

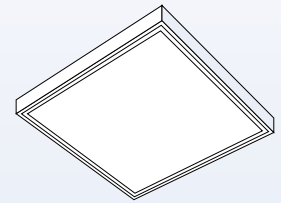

1. Turn off power.
2. Assemble all four parts of frame using the included Frame Screws.
3. Attach frame to ceiling using included Ceiling Anchors and Screws.

4. Once mounted to ceiling, unscrew and remove Side 2.

5. Insert panel into lower slot on the frame.
Note: You will have limited space between the panel and ceiling. Make wiring connections to the driver, then slide the panel into the frame.

6. Re-attach Side 2 and secure with included Frame Screws.
7. Turn on power and you are done.

Before beginning installation, carefully remove accessory parts from packaging, inspect and ensure all pieces are accounted for.
