LED SMART LIGHT PANEL RETROFIT
with Integrated Programmable Controls

The LED Smart Light Panel Retrofit brings a new level of control and convenience to interior grid ceiling applications. Equipped with an on-board sensor that supports both occupancy sensing and daylight harvesting, this retrofit kit is the ultimate energy reduction tool. And while this functionality comes standard out of the box, it can be fully customized with just a few taps to your mobile device. Our new mobile app, LiteSmart, enables fixtures in a space to be grouped together and function as one; they can be turned on/off, dimmed, or programmed based on your schedule. Settings can be adjusted and pushed live in seconds. Custom scene configurations can also be created to meet the various needs of the space.

This LED retrofit can accommodate all standard sizes of fluorescent troffers, including 2’ x 4’, 2’ x 2’ or 1’ x 4’, and it’s patented design makes installation simple and quick. The kit can be installed by one person in less than two minutes, without breaking into the ceiling plenum. Once installation is complete, all functionality can be set up via LiteSmart, then controlled through the app or our wireless remote switch.

The LED Smart Light Panel Retrofit delivers up to 125 lumens per watt (LPW) over the course of it’s 100,000-hour rated life. It ensures long-term energy savings over traditional fluorescent bulbs and ballasts, as well as eliminates routine maintenance, making it perfect for updating existing troffers. Furthermore, it’s backed by an industry-leading 10-year warranty, guaranteeing peace of mind for the life of your fixture.

**KEY FEATURES**
- Wireless control via mobile app or bluetooth wall switch (optional)
- Daylight harvesting
- Occupancy sensing
- 100,000-hour rated life
- 10-year warranty
- DLC Premium (up to 125 LPW)
- Sealed enclosure (Bug/dust free)
- Anti-yellowing frosted diffuser
- Continuous dimming
- Suitable for damp locations

**MARKETS**
- Schools and universities
- Offices and municipal buildings
- Healthcare facilities and hospitals

**APPLICATIONS**
- Drop/grid ceilings
- Fluorescent troffers

Littronics, Inc. | 6969 W. 73rd St. Bedford Park, IL 60638 | 800-860-3392 | customerservice@littronics.com

**SPECIFICATIONS**

**Average rated life:** 100,000 hours (@L70)

**Warranty:** 10 years

**Operating temp:** -4°F to 113°F (-20°C to 45°C)

**Surge protection:** ANSI C82.77 compliant

**Input voltage:** 120-277V

**Input frequency:** 50/60Hz

**Power factor:** ≥0.95

**CRI:** 80

**Lens type:** Polycarbonate frosted

**Dimming:** Continuous dimming (0-100%)

**Location rating:** Damp

**ETL listed:** Yes

**DLC rating:** Premium

**RoHS compliant:** Yes

**Sensor type:** PIR (passive infrared)

**MOUNTING**

**Standard:** T-bar grid (drop ceilings) mounted fluorescent troffers

**Wiring access:** 1/2” trade size knockouts

**ACCESSORIES**

**Bluetooth Control Switch:** Used to control lighting functions such as on/off, dimming, daylight harvesting and scene selection

**PRODUCT OVERVIEW AND INSTALLATION**

The mounting rails are inserted between the troffer and grid rail on opposite sides with the anti-rotational tabs pointed inward and notches facing up.

The panel hangers are inserted into the notches on the mounting rail, enabling the panel to hang freely while electrical connections are completed.

**LITESMART by Litetronics**

**BENEFITS**
- Total control over your lighting system
- Quick and easy changes that can be implemented in seconds across a group of fixtures
- Further energy reduction via occupancy sensing, daylight harvesting and max wattage control
- Ability to create custom scenes based on specific needs, such as presentations
- Time scheduling that sets hours of operation per day

A supplemental app, **LiteBright**, enables additional energy management functionality with the ability to set the max wattage of your fixtures.

**NETWORK CAPABILITIES**
- Unlimited admins and guests can be added to each network
- Each network supports up to 100 fixtures
- Individual fixtures can belong to up to 32 groups
- Up to 127 scenes can be created from one network
- Up to 10 switches can be created from one network

**WIRELESS CONTROL**

The LED Smart Light Panel Retrofit uses bluetooth technology for a completely wireless connection to your smart phone or remote wall switch.

*Set up and manage your space with LiteSmart.*

*Use the remote switch for everyday control.*

LiteSmart is a mobile app that enables total management of lighting systems at the touch of your fingers. Within the app, all LED Smart Light Panel Retrofit functionality can be set up and controlled; on/off, dimming, grouping, scene creation and time scheduling. Adjustments can also be made to the occupancy sensor and daylight harvesting settings, then implemented across an entire group in seconds.

**SWITCH CAPABILITIES**
- Enable/disable auto daylight harvesting
- Brighten/dim a group or turn on/off the entire group of fixtures
- Program up to 3 scenes per switch

**WIRELESS SWITCH**

Part # BCS01 or BCS02

**BENEFITS**
- Control over key functions for a specific group of lights
- Adjustments are quick and easy, and create an optimized space for a variety of needs
- Further reduce energy via daylight harvesting function, or disable daylight harvesting for full brightness
- Ability to choose between custom scenes based on specific needs within the space

The bluetooth control switch comes in handy for the daily occupants of a space. This switch, which can be wall mounted, enables quick adjustments to be made to a specific group of fixtures. Features include on/off, dimming, daylight harvesting and scene selection. The switch must be set up through the LiteSmart mobile app, but can then function on it’s own within any space.
