CREATING INNOVATIVE LIGHTING SOLUTIONS FOR OVER 50 YEARS

Even during these uncertain times, the one thing that remains constant is our commitment to you our customer! The fact is, you are not just choosing a lighting product, you are also choosing a manufacturer partner. You therefore want to choose one that understands the potential pitfalls, will not slow you down and is ready to provide the support, information, and customer service you need to keep your projects running smoothly. For over 50 years, Litetronics has been a leader in the commercial LED lighting industry, with quality products and gold-star customer service. We are committed to helping you deliver the best ROI for your customers.

Our current product line continues to push the boundaries of the latest technologies combined with a focus on ease of use. We have recently launched our next generation LED Strip Fixture as well as our new LED Wrap and Stairwell fixtures. Moving forward we will continue to innovate and provide you with the best lighting solutions in the marketplace. Thank you for your continued partnership and we look forward to working with you in the coming months.

------------------------	-------

Combining top-of-the-line efficiency with a stylish, modern design and quick installation process, the patented LED Light Panel Retrofit is an ideal solution for converting fluorescent troffers to LED.

Each model offers unique features designed to best serve the needs of the user, while delivering significant energy savings, improved light quality and long life with zero maintenance.

The three-piece retrofit kit can be installed in existing troffers in under two minutes. There is no need to break into the ceiling plenum and in many cases, the panel is thin enough to install beneath the existing bulbs and ballast.

- 100,000-hour rated life (@L70)
- 10-year warranty
- DLC Premium (up to 125 LPW)
- Rated for damp locations
- Anti-yellowing polycarbonate frosted diffuser
- Bug and dust free (sealed enclosure)
- Available in 2'x2', 2'x4' and 1'x4' sizes
- 120-277V
- Compatible with Emergency Battery Backup

CHOOSE THE RIGHT OPTION

Listed below are the three available models, as well as the unique features of each. The features above are applicable to all three models.

SMART

- Wireless control via mobile app or bluetooth wall switch (optional)
- Daylight harvesting
- Occupancy sensing
- Custom scene configurations
- Time scheduling
- Fixture grouping
- Continuous dimming (0-100%)

ADJUSTABLE WATTAGE

- Adjustable wattage driver enables a range of lumen options in one unit
- 0-10V Dimming

TRI-LEVEL DIMMING

- Ability to cycle through three light levels (100%, 66% & 33%) using existing line voltage and switch

EB10/EB10N

CAN'T FIND WHAT YOU'RE LOOKING FOR? Give us a call to talk about made to order options or special projects.

The LED Magnetic Retrofit is the market’s easiest fluorescent-to-LED troffer retrofit kit.

Equipped with rare earth magnets at each corner, this one-piece retrofit solution makes upgrading your fluorescent troffer quick and painless; after removing your existing tubes and ballast, the Magnetic Retrofit snaps right in to your troffer and holds for easy alignment and wiring.

Each model offers unique features designed to best serve the needs of the user, while delivering significant energy savings, improved light quality and long life with zero maintenance.

- 100,000-hour rated life (@L70)
- 10-year warranty
- DLC Premium (up to 157 LPW)
- Rated for damp locations
- Integrated magnets for easy installation
- Available for 2’x2’, 2’x4’ troffers and 1’x4’ strips or wraps
- 120-277V

CHOOSE THE RIGHT OPTION

Listed below are the four available models, as well as the unique features of each. The features above are applicable to all four models.

TROFFER RETROFITS

ADJUSTABLE WATTAGE

- Adjustable wattage driver enables a range of lumen options in one unit
- Compatible with 2’x2’ or 2’x4’ fluorescent troffers
- Built-in 12V accessory wire
- Compatible with Emergency Battery Backup
- 0-10V dimming

TRI-LEVEL DIMMING

- Ability to cycle through three light levels (100%, 66% & 33%) using existing line voltage and switch
- Compatible with 2’x2’ or 2’x4’ fluorescent troffers

HIGH OUTPUT

- An economic solution to replacing fluorescent tubes
- Available 2-tube option will fit 2’x4’ troffers
- Tri-level “Switch” dimming included

STRIP/WRAP RETROFITS

FIXED WATTAGE

- Ability to daisy chain for continuous row mounting
- Compatible with fluorescent strip or wrap fixtures
- Compatible with Emergency Battery Backup (EB23UQ)

INSTALLS IN MINUTES

The magnetic retrofits simply attach to the existing troffer via built-in magnets, leaving the installers hands free for wiring and completion.

Select models feature an adjustable wattage driver, 12V accessory wire and magnetic junction box.

The LED Strip Retrofit mounts to your existing strip housing, significantly reducing installation time and resulting in modern efficiency with the polished look of a new fixture.

In just a few minutes, your fluorescent strip fixture can be converted to LED. The Strip Retrofit mounts to the existing housing, maintaining the current aesthetic, reducing disposal costs and also reducing labor time on the project.

This LED retrofit will improve the look and feel of your space while delivering significant energy savings, improved light quality and long life with zero maintenance.

- 100,000-hour rated life (@L70)
- 10-year warranty
- DLC Premium (up to 130 LPW)
- Shatterproof lens makes it safe for food service applications
- Available in 4' and 8' lengths (fits 2.75" - 5" wide housings)
- Compatible with Emergency Battery Backup
- 0-10V dimming
- 120-277V

OVERVIEW AND INSTALLATION

Template tool pinpoints the exact locations for drilling new holes.

Hang lamp by clips for easy hands free wiring.

Adjustable brackets help retrofit adapt to a wide variety of housing widths.

CAN'T FIND WHAT YOU'RE LOOKING FOR? Give us a call to talk about made to order options or special projects.

Combining top-of-the-line efficiency with a sophisticated, architectural look, the LED Volumetric Troffer is a an ideal solution for commercial, grid ceiling applications.

Smart capabilities, such as occupancy sensing and daylight harvesting make this fixture the ultimate energy reduction tool. Further customization and convenience are achieved through the LiteSmart mobile app, which puts the control in the users hands. The adjustable wattage model also enables fine-tuning of energy use by capping the total wattage used based on the light that’s needed.

Each model offers unique features designed to best serve the needs of the user, while delivering significant energy savings, improved light quality and long life with zero maintenance.

- 100,000-hour rated life (@L70)
- 10-year warranty
- DLC Premium (up to 125 LPW)
- Rated for damp locations
- Uniform, low-glare light distribution
- Available in 2’x2’, 2’x4’ and 1’x4’ sizes
- 120-277V
- Compatible with Emergency Battery Backup

CHOOSE THE RIGHT OPTION

Listed below are the two available models, as well as the unique features of each. The features above are applicable to both.

SMART

- Wireless control via mobile app or bluetooth wall switch (optional)
- Daylight harvesting
- Occupancy sensing
- Custom scene configurations
- Time scheduling
- Fixture grouping
- Continuous dimming (0-100%)

ADJUSTABLE WATTAGE

- Adjustable wattage driver enables a range of lumen options in one unit
- 0-10V dimming

OVERVIEW AND MOUNTING OPTIONS

The LED Volumetric Troffer fits in standard 2’x2’, 2’x4’ and 1’x4’ grid ceilings, but can also be recessed, surface mounted or suspension mounted.

LED LIGHT PANEL

Combining top-of-the-line efficiency with a clean, simple look, the LED Light Panel is an ideal solution for commercial, grid ceiling applications.

Smart capabilities, such as occupancy sensing and daylight harvesting make this fixture the ultimate energy reduction tool. Further customization and convenience are achieved through the LiteSmart mobile app, which puts the control in the users hands. The adjustable wattage model also enables fine-tuning of energy use by capping the total wattage used based on the light that's needed.

Each model offers unique features designed to best serve the needs of the user, while delivering significant energy savings, improved light quality and long life with zero maintenance.

- 100,000-hour rated life (@L70)
- 10-year warranty
- DLC Premium (up to 125 LPW)
- Rated for damp locations
- Anti-yellowing polycarbonate frosted diffuser
- Bug and dust free (sealed enclosure)
- Available in 2'x2', 2'x4' and 1'x4' sizes
- 120-277V
- Compatible with Emergency Battery Backup

CHOOSE THE RIGHT OPTION

Listed below are the three available models, as well as the unique features of each. The features above are applicable to all three models.

SMART

- Wireless control via mobile app or bluetooth wall switch (optional)
- Daylight harvesting
- Occupancy sensing
- Custom scene configurations
- Time scheduling
- Fixture grouping
- Continuous dimming (0-100%)

ADJUSTABLE WATTAGE

- Adjustable wattage driver enables a range of lumen options in one unit
- 0-10V Dimming

INTEGRATED BATTERY BACKUP

- Built-in battery backup supplies 90-minutes of operation during a power outage
- Field-adjustable light output/wattage
- Field-adjustable color temperature

OVERVIEW AND MOUNTING OPTIONS

The LED Light Panel fits in standard 2'x2', 2'x4' and 1'x4' grid ceilings, but can also be recessed, surface mounted or suspension mounted.

The LED Vapor Tight Slim Strip is a rugged and uniquely slim industrial fixture well-suited for harsh environments both indoor and outdoor.

At only 1.8" in diameter, this compact fixture works well in tight spaces. It can be surface or suspension mounted and can be daisy chained to cover more area from one power source. The fixture and mounting hardware are corrosion resistant, making it an ideal fit for harsh environment.

- 50,000-hour rated life (@L70)
- 5-year warranty
- DLC Premium (up to 130 LPW)
- Sealed enclosure (IP67 and IK10 rated)
- Corrosion resistant (fixture and hardware)
- Ability to daisy chain*
- Available in 4' and 8' lengths
- 120-277V
- 0-10V dimming

OVERVIEW AND INSTALLATION

The LED Vapor Tight Slim Strip is available in 4' or 8' lengths and can be surface or suspension mounted.

The LED Strip Fixture is a sleek and simple, energy efficient linear lighting solution that delivers uniform, high-quality light distribution, optimal energy usage and zero maintenance.

Designed with versatility in mind, the tunable model includes field-adjustable light output as well as adjustable color temperature, allowing the installer to fine-tune the fixture to better meet the needs of the application.

The fixture is available in a range of sizes and can be surface or suspension mounted, either in a single-fixture configuration or as a continuous row to cover more ground from one power source.

- DLC Premium (up to 130 LPW)
- ETL rated for damp locations
- 10-year warranty
- 100,000-hour rated life (@L70)
- Continuous row mounting (daisy chaining)
- Shatterproof polycarbonate lens
- 0-10V dimming (0% minimum)
- Translucent end caps

LED STAIRWELL FIXTURE

The LED Stairwell Fixture is sleek and simple, energy efficient linear lighting solution that includes an integrated sensor for minimizing energy use in areas that aren't typically occupied, such as stairways or storage rooms.

Designed with versatility in mind, it includes field-adjustable light output as well as adjustable color temperature, allowing the installer to fine-tune the fixture to better meet the needs of the application.

Designed for easy implementation, the one-piece system can be installed in minutes, reducing project time. Once installed, the LED Stairwell Fixture will improve the look and feel of your space while delivering significant energy savings, improved light quality and long life with zero maintenance.

The LED Wrap Fixture is a modern, energy efficient replacement for fluorescent fixtures that delivers uniform light distribution and significant energy cost savings.

Designed with versatility in mind, it includes field-adjustable light output as well as adjustable color temperature, allowing the installer to fine-tune the fixture to better meet the needs of the application.

The wide housing on this fixture makes it perfect for renovation projects where it will cover up imperfections left from previous fixtures, but it looks equally clean and sleek in new construction. The prismatic wrap-around lens ensures even, glare-free light distribution whether single or continuously mounted.

The LED Garage Light is a versatile, energy efficient solution for upgrading parking facilities to LED, improving safety and occupant satisfaction.

This LED upgrade not only reduces energy and maintenance costs compared to traditional options, but also contributes to creating a safer, more welcoming environment. Visibility is crucial to preventing accidents in areas with congested, tight spaces, as well as establishing a sense of safety and comfort.

The fixture can be easily customized to your space. A built-in sensor enables greater energy-savings features such as occupancy sensing and daylight harvesting. A variety of mounting options also make it easy to incorporate into your space.

- 50,000-hour rated life (@L70)
- 5-year warranty
- DLC Premium (up to 133 LPW)
- Programmable sensor with occupancy sensing and daylight harvesting (Optional)
- IP54 rated
- Polycarbonate Fresnel lens

The LED Round High Bay PL delivers top of the line efficiency, durability and versatility, resulting in significant energy savings, low maintenance and adaptability across a wide range of high ceiling applications.

The PL’s unique look sets it apart from the competition, but there’s more to this fixture than aesthetics. The polycarbonate prismatic lens distributes even illumination, minimizing glare while also guaranteeing long term durability. The die cast aluminum heat sink separates the LEDs from the driver, creating enhanced air flow, lower operating temperature and better efficiency.

Each unit is equipped with a sensor socket that can accommodate an add-on PIR or Microwave sensor, enabling occupancy detection and daylight harvesting, further reducing energy consumption and costs. For convenience, the sensor settings can be adjusted from the ground via remote control and each high bay can be fine tuned to adjust brightness, sensor range sensitivity, hold time and stand-by time.

- 100,000-hour rated life (@L70)
- 10-year warranty
- DLC Premium (up to 140 LPW)
- Sensor options enables occupancy sensing and daylight harvesting
- Polycarbonate prismatic lens
- IP69K and IK10 rated
- Rated for indoor or outdoor use
- Hook, pendant or yoke mounting
- Compatible with Emergency Battery Backup (EB20)
- 0-10V dimming

CHOOSE THE RIGHT OPTION

Listed below are the two available models, as well as the unique features of each. The features above are applicable to both.

STANDARD TEMPERATURE

- Suitable for use in ambient temperatures of -40°F to 115°F

HIGH TEMPERATURE

- Suitable for use in ambient temperatures of -40°F to 149°F
- Corrosion resistant

PRODUCT OVERVIEW

PIR or microwave sensor options enable occupancy sensing and daylight harvesting, further reducing energy consumption and costs.

The High Bay PL comes with a removable mounting hook for easy installation and also includes a 5' safety cable. It can be pendant mounted by removing the hook or yoke mounted with the HBCAM01.

LED ROUND HIGH BAY SL

The Litetronics LED High Bay SL is an affordable, direct replacement for HID fixtures that delivers an immediate reduction in energy costs while improving the consistency and quality of light within a space.

This lightweight and compact luminaire can be mounted directly to existing HID configurations, acting as a one-for-one replacement. Its 6' power cord provides plenty of length for wiring and the whole installation can be completed in a matter of minutes.

The fixture delivers 130 LPW with lumen levels ranging from 13,000 to 26,000. It's 110° beam angle and circular light distribution provide even lighting throughout a space, increasing visual acuity and minimizing safety concerns.

- Up to 130 LPW
- DLC Premium
- IP65 with wet location rating
- 10kV surge protection
- Polycarbonate frosted lens
- 1-10V dimming
- Round hook mounting
- 6' power cord
- 5' safety cable
- 50,000-hour rated life
- 5-year warranty

LED NSF HIGH BAY

The highly efficient LED High Bay for when safety and sanitation are top priority.

The LED NSF High Bay delivers top of the line efficiency while enabling a heightened level of sanitation and minimizing time and effort on maintenance and cleaning. Its smooth outer shell eliminates exposed hardware and crevices where moisture and bacteria can accumulate. It is also dust tight and can withstand high-pressure steam wash downs.

In addition to safety and sanitation, the fixture delivers significant energy savings, improved light quality and long life with zero maintenance.

- 50,000-hour rated life (@L70)
- 5-year warranty
- DLC Premium rated (130 LPW)
- NSF Certified for use in food service applications
- Wet location rated (IP69K)
- Corrosion resistant
- Shatterproof, polycarbonate lens
- Pre-installed safety cable
- 0-10V dimming (100, 150W only)
- 120-277V

The energy-efficient, Class 1, Div 2, LED High Bay solution for hazardous environments.

The LED Hazardous Location High Bay is the perfect solution for areas that may be labeled as hazardous; areas where fire or explosion conditions exist due to the presence of flammable gases or vapors, flammable liquids, combustible dust or easily ignitable fibers. As a Class I Division 2 luminaire, it protects against possible power surges and sparks by securing all wiring within. It can be pendant or yoke mounted, using hard conduit in each instance to further protect any wiring. It is also corrosion resistant with tempered glass for added durability.

In addition to safety protocols, the fixture delivers significant energy savings, improved light quality and long life with zero maintenance.

- 50,000 hour rated life
- 5 year warranty
- DLC Premium rating (138 LPW)
- Class 1, Div 2 - Groups A, B, C & D
- T4 rating
- Corrosion resistant
- Wet location rated
- Shatterproof tempered glass lens
- IP66 rating
- 120-277V or 277-480V
- 0-10V dimming

Yoke Mounting for Wall Wash and Angle Mounts

CAN'T FIND WHAT YOU'RE LOOKING FOR? Give us a call to talk about made to order options or special projects.

The LED Linear High and Low Bays deliver best-in-class efficiency, durability and versatility, resulting in significant energy savings and zero maintenance over the life of the fixture.

This fixture’s unique look sets it apart from the competition, but there’s more to this fixture than aesthetics. The extruded aluminum housing is excellent at dissipating heat, keeping operating temperatures low. The polycarbonate frosted lens is durable, but also offers a large lighting surface, making this an ideal upgrade from traditional fluorescent fixtures.

Each unit is equipped with a sensor socket that can accommodate an add-on PIR or Microwave sensor, enabling occupancy detection and daylight harvesting, further reducing energy consumption and costs. For convenience, the sensor settings can be adjusted from the ground via remote control and each high bay can be fine tuned to adjust brightness, sensor range sensitivity, hold time and stand-by time.

- 100,000-hour rated life (@L70)
- 10-year warranty
- DLC Premium rating (160 LPW)
- Tunable CCT option available
- Sensor options enables occupancy sensing and daylight harvesting
- Shatterproof, polycarbonate frosted lens
- Rated for damp locations
- Surface, pendant or suspension mounting
- Compatible with Emergency Battery Backup (EB20)
- 120-277V or 277-480V
- 0-10V dimming

EMERGENCY LIGHTING

LED EMERGENCY LIGHT HB

This LED emergency fixture is equipped with built-in battery backup and designed specifically for overhead mounting in high ceiling environments.

- Provides 90 minutes of emergency light during power loss
- Compatible with input voltage range of 120V to 480V without the use of additional equipment
- Can be mounted up to 40' while still meeting code requirements
- Monthly self testing or easy manual testing via remote control
- ETL approved for wet locations (pending) with IP66
- Snap hook and pendant mounting compatibility
- 50,000-hour rated life
- 5-year warranty

ORDERING CODE	DESCRIPTION	VOLTS	WATTS	CCT	LUMENS
HBEM30	30W Emergency Light for High Bay Applications 5000K	120-277	30	5000	4,000

EMERGENCY BATTERY BACKUP

EMERGENCY BACKUP FOR FIXTURES/RETROFITS

This battery backup unit delivers emergency power to a wide range of Litetronics standard and smart LED panels, troffers, strips and retrofits.

- Provides 90 minutes of battery-powered light during an outage
- Monthly/annual self testing or easy manual testing via remote control
- Indicator module mounting compatibility with grid ceiling, drywall, or open ceiling applications
- ETL approved for damp locations
- 50,000-hour rated life
- 5-year warranty

See spec sheet for complete compatability list

ORDERING CODE	DESCRIPTION	VOLTS	WATTS
EB10	10W Emergency Battery Backup for Standard Fixtures	120-277	10
EB10N	10W Emergency Battery Backup for Smart Fixtures	120-277	10

EMERGENCY BACKUP FOR HIGH BAYS

This battery backup unit delivers emergency power to a variety of Litetronics LED high bays.

- Provides 90 minutes of battery-powered light during an outage
- Monthly/annual self testing or easy manual testing via remote control
- Indicator module mounting compatibility with grid ceiling, drywall, or open ceiling applications
- ETL approved for damp locations
- 50,000-hour rated life
- 5-year warranty
- Compatible with all 0-10V equipped high bays under 200W

See spec sheet for complete compatability list

ORDERING CODE	DESCRIPTION	VOLTS	WATTS
EB20	20W Emergency Battery Backup for Standard High Bays	120-277	20

INDICATOR MODULES

ORDERING CODE	DESCRIPTION	USAGE
EBCM	Ceiling-mounted Indicator Module	This unit is used in grid ceiling applications. It connects to the EBB unit and is recess mounted in an adjacent panel where it displays the unit's current status of operation.
EBAM	Adhesive-mounted Indicator Module	This unit is used in drywall/open ceiling applications. It connects to the EBB unit and is mounted via adhesive to the side of the fixture, where it displays the unit's current status of operation.

TEST REMOTE

ORDERING CODE	DESCRIPTION	USAGE
TR01	Test remote for integrated EBB	Test and demo EBB functionality. One remote will control all EBB equipped units.

LED T8 & T5 BALLAST COMPATIBLE LAMPS

The LED T8 and T5 plug & play compatible lamps work with most ANSI-approved instant-start and program-start fluorescent ballasts.

- Beam angle = 330°
- 50,000-hour rated life
- CRI = 83
- 47% energy savings vs. standard T8 fluorescent
- Maintains original fixture UL certification
- Warrantied for 5 years when used with normal & low ballast factor ballasts

LED T8 BALLAST BYPASS LAMPS

The LED T8 Bypass Lamps run directly on line voltage, eliminating the ballast and any ballast compatibility issues.

They also avoid power loss caused by the ballast and maintenance issues related to ballast life. Shaped for existing linear fixtures, they are fused for overload protection. The tubes offer 330-degree light output and frosted glass for optimal light diffusion. Rated for 50,000 hours and with a 5-year warranty, they offer over twice the life and a significant energy upgrade over ballasted fluorescent lights.

LED T8 BALLAST BYPASS SINGLE ENDED

The 2' and 4' LED T8 Single-Ended Bypass reduce wire bulk. Fused against overload, the drivers are integrated within the end cap, providing strong thermal grounding. Designed to meet UL specifications 1598 and 1598B, the LED Single-Ended Bypass protects from shock when touching both ends.

PARTNER WITH THE RIGHT LIGHTING MANUFACTURER

Your customers deserve the best and Litetronics has your back. When you're selecting the right products for your project, make sure you're working with a manufacturer that'll be there through the whole process.

Here are some of the things you can count on when working with Litetronics

- Quick and clear answers so you can place fast, accurate bids
- A product offering that matches the customer's needs
- High quality products that qualify for the best rebates
- A complete product package with controls and sensors
- Reliable product availability and delivery
- Easy product installation with clear instructions
- Extended product warranties
- Capable support to put things right if they go wrong
