MOUNTING OPTIONS

A wide variety of mounting options are offered to meet your outdoor lighting needs and challenges.

Slipfitter Mount

Direct Fixed Mount

Direct Rotatable Mount

Trunnion Mount

Yoke Mount

NOTE: Mounts sold separately. Refer to spec sheet for details.

SQUARE & ROUND POLE OPTIONS

Meet your needs with mounting options for both round and square poles (Refer to spec sheet for available configurations).

GLARE SHIELDS

Optional Shields to meet code and ordinance.

COLOR OPTIONS

Dark Bronze finish standard. Black and White (MTO).

SENSORS & CONTROLS

LIMITLESS OPTIONS

A wide option of sensor and control products allows you to manipulate, commission and control Litetronics Area Lights, furthering our specialized offering of providing flexible options.

LiteSmart is a mobile app that enables total management of lighting systems at the touch of your fingers.

LITESMART

SC005

Plug-in PIR Sensor Enable occupancy sensing on pluggable fixtures.

SC006

Plug-in Microwave Sensor Enable occupancy sensing on pluggable fixtures.

SCR053

The SCR053 Remote Control, used (with C005 and SC006 sensors) can adjust settings after installation.

SC008

Plug-in Bluetooth PIR Sensor with IR. This sensor enables wireless control of fixtures, or groups of fixtures, through the LiteSmart mobile app.

SCR054

Use the SCR054 Remote Control to Commission Litetronics "Next Generation" LiteSmart IR-Enabled Sensor.

OLAPC1/OLAPC2

Use of 3-pin photocontrol for 120-277V and 277-480V (MTO only).

OLASP1/OLASP2

Used for applications that need increased surge protection for 120-277V or 277-480V.

ACCESSORY LENS

Types II, III, IV and V available for 150W, 200W and 300W. Refer to spec sheet for details.

AREA LIGHT DISTRIBUTION PATTERNS

You have unique needs. Each application calls for a specific distribution of light taking into consideration the area and even type of surface.

Litetronics Area Lights come with Type III distribution standard....optional distributions include II, IV and V.

SENSORS & CONTROLS

YOU'RE IN CONTROL

From daylight harvesting sensor options to occupancy setting and Bluetooth technology, the Litetronics offering of sensors and controls provide limitless capabilities and options

LiteSmart is a mobile app that enables total management of lighting systems at the touch of your fingers.

LITESMART

SC005

Plug-in PIR Sensor Enable occupancy sensing on pluggable fixtures.

SC006

Plug-in Microwave Sensor Enable occupancy sensing on pluggable fixtures.

SCR053

The SCR053 Remote Control, used (with C005 and SC006 sensors) can adjust settings after installation.

SC008

Plug-in Bluetooth PIR Sensor with IR. This sensor enables wireless control of fixtures, or groups of fixtures, through the LiteSmart mobile app.

SCR054

Use the SCR054 Remote Control to Commission Litetronics "Next Generation" LiteSmart IR-Enabled Sensor.

SC010

Elbow with 1 Pin Sensor Socket Ordered separately - Required for all Plug-In sensors SC005, SC006, SC008 (available for 150W model only).

OLAPC1/ OLAPC2

Use of 3-pin photocontrol for 120-277V and 277-480V (MTO only).

OLASP1/ OLASP2

Used for applications that need increased surge protection for 120-277V or 277-480V.

Note:

- Photocell comes standard on 60W/100W/150W products. Operating on/off capabilities at dusk and dawn.
- The 255W / 330W products are provided with three-pin receptacle and shorting cap as standard. Optional photocell ordered separately.
