

LED MAGNETIC RETROFIT

FOR 1' x 4' FLUORESCENT STRIP FIXTURES AND WRAPS

DESCRIPTION

Litetronics has simplified the process of converting fluorescent strip fixtures to LED. The 1' x 4' LED Magnetic Retrofit is perfectly suited for upgrading single 4' fixtures, 8' fixtures or continuous row mounting. The 2-tube configurations are connectable, offering the ability to daisy chain multiple fixtures in order to cover more ground from one power source. To further support the installation process, each unit is equipped with rare earth magnets at both ends, allowing the installer to magnetically attach the retrofit to the inside of the fixture, leaving them with two free hands for wiring and alignment before securing the final screws.

Each tube configuration generates up to 157 LPW of flicker free, consistent light, which results in a significant reduction in energy use compared to fluorescent fixtures. This LED retrofit is rated for a 100,000-hour life (@L70), meaning that you'll see very little degradation over a long period of time.

FEATURES

- Up to 157 LPW
- Rare earth magnets
- 100,000-hour rated life
- 10-year warranty
- Flicker free driver
- 0-10V dimming (select models)
- Connectivity options (direct or via various length cords)

BENEFITS

- Significant reduction in energy use over fluorescent bulbs
- Consistent, flicker free light output over the life of the lamp
- Simple installation process
- Ability to daisy chain for continuous row mounting
- Suitable for damp locations
- Compatible with Emergency Battery Backup

MARKETS

- Schools and universities
- Offices and municipal buildings
- Healthcare facilities and hospitals

APPLICATIONS

- Grid/drop ceilings
- Fluorescent troffers
- Strip fixtures
- Fluorescent wraps

CERTIFICATIONS

SPECIFICATIONS

Life (@L70): 100,000 hours @L70

Warranty: 10 years

PERFORMANCE

Operating temp: -5°F to 95°F (-20.5°C to 35°C)

Efficacy (LPW): 157 LPW

CRI: 82

ELECTRICAL

Input voltage: 120-277V

Input frequency: 50/60Hz

PF: ≥.9

THD: N/A

Surge protection: N/A

Dimming: 0-10V

Minimum dimming: N/A

Aux. Voltage: No

Driver CL: N/A

Whip/Cord: No

Sensor: No

DLC: 5.1 Standard

ACCESSORIES

- Power and dimming connectors for continuous row mounting.
- Emergency Battery Backup.

ORDERING INFORMATION

Listed below are the max wattage settings and lumens for each model number.

ORDERING CODE	DESCRIPTION	WATTS	CCT (K)	RETROFIT LUMENS*	LUMINAIRE LUMENS**	MAX CONTINUOUS LOAD
RFM262T140DL	26W 1' x 4' LED Magnetic Retrofit in 4000K	26	4000	4,080	3,250	22 Units
RFM262T150DL	26W 1' x 4' LED Magnetic Retrofit in 5000K	26	5000	4,080	3,250	22 Units

ACCESSORIES

ORDERING CODE	DESCRIPTION	ACCESSORY USE
A. RFAC-4FT	4'- Retrofit Lamp to Lamp Power Extension	Power cable for Retrofits up to 4' apart.
B. RFAC-8IN	8"- Retrofit Lamp to Lamp Power Extension	Power cable for Retrofits up to 8" apart
C. RFAC	Retrofit Dual Power Connector	Molded power jumper connects Retrofits end-to-end
D. RFALVC	Retrofit 0-10V Dimming Connector	0-10V dimmer jumper connects Retrofits end-to-end
E. RFALVC-4FT	4'- Retrofit 0-10V Dimming Connector	0-10v dimmer cable for Retrofits up to 4' apart
EB10	10W Emergency Battery Backup	Supplies battery backup to an individual fixture for up to 90 minutes. <u>Must be ordered with EBCM or EBAM indicator module.</u>
EBCM	Ceiling-Mounted Indicator Module	This Ceiling-Mounted Indicator Module (EBCM) can be used with one of Litetronics' emergency battery backup products (EB10, EB10N or EB20) to provide a visual confirmation of the operational status of the EBB unit. This module is typically used in grid ceiling applications where it is recess mounted in a panel adjacent to the fixture.
EBAM	Adhesive-mounted Indicator Module	This Adhesive-Mounted Indicator Module (EBAM) must be used with one of Litetronics' emergency battery backup products (EB10, EB10N or EB20) to provide a visual confirmation of the operational status of the EBB unit. This module is typically used in open ceiling or drywall ceiling applications where the module is applied to the side of the fixture, mounting kit, or a nearby structural element.
TR01	Test Remote Control	Used for testing and demonstrating the functionality of EB10 emergency battery backup integrated products.

Retrofit power (C) and dimming (D) connectors shown in operation

Similar for 4' connectors (A) & (E) 8' Retrofit power (B) and dimming (F) connectors shown in operation

* Linear ambient lumens
** Based on Photometric testing consistent with IES LM-79 testing; Lumens will vary based on diffuser and fixture.
