**\*Note:** Mounts sold separately. Color options available, refer to spec sheet for details.

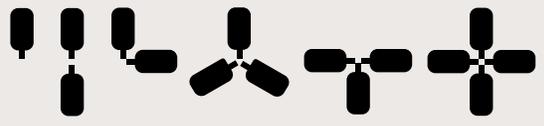

## GLARE SHIELDS

Optional Shields to meet code and ordinance.

## CONFIGURED TO YOUR NEEDS

From single to double to quad configurations, LiteTronics Area Light Pro can accommodate the needed number of fixtures per pole to meet all application needs.

# LED Roadway Luminaire

A durable, energy efficient outdoor lighting solution featuring our patented 120–480V all in one driver for simplified installation and universal compatibility. With selectable wattage and color temperature, it delivers bright, uniform, low glare illumination tailored to any roadway or parking application.

Rugged construction, quick access lens, and sealed, bug free optics ensure long lasting, low maintenance performance.

**With all the options offered, you're able to meet your specific application needs.**

- Urban and Suburban Street Lighting
- Commercial Centers
- Industrial Complexes
- Roadways

**RL1503 | RL150B3 | RL1503BA\* LPW - 160**

**CCT: 3000 / 4000 / 5000**

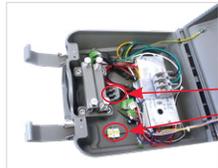

**WATTS: 75 / 120 / 150** \*RL1503A is made in America.

## WEATHER-RESISTANT

The waterproof gasket protects against moisture and ensuring long-lasting durability in harsh environmental conditions.

Six drain holes, located at the bottom of the fixture, prevents moisture building up within the cavity.

Adjustable angles to a minimum of  $\pm 5^\circ$  from the axis of the tenon in a minimum of 5 steps:

- $+5^\circ, +2.5^\circ, 0, -2.5^\circ, -5^\circ$
- High Visibility Level

### Easily change Roadway Luminaire light lens

- To change the lens, remove the two screws from lens frame.

- Open the fixture frame and easily swap out the lenses.

# LED Emergency Battery Backup

This all in one battery backup delivers reliable emergency power for LED fixtures from 120–480V, providing 90 minutes of illumination during outages for safe egress.

Designed for high output fixtures greater than or equal to 80W and less than or equal to 300W, it requires 0–10V dimming connections for loads above 40W and ensures compliance with emergency footcandle standards. Automatic monthly self testing and a visual status indicator keep the system always ready.

**With all the options offered, you're able to meet your specific application needs.**

- Emergency battery backup

**EB40P**

**OPERATION TIME: 90 Min.**

VOLTS: 120-480V

WATTS: 40

## ACCESSORIES

Each EB40P unit must be ordered with an indicator module (EBAM, EBCM), which communicates via handheld remote (TR01), and displays the unit's current status of operation.

### TR01

Used for testing and demonstrating the functionality of EB40P emergency battery backup.

### EBAM

Adhesive Mounted Indicator Module that displays operational status for Litetronics emergency battery backup unit.

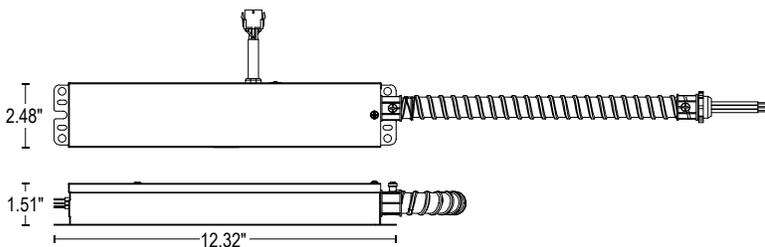

### EBCM

Ceiling-Mounted Indicator Module provides a visual confirmation of the operational status of the Litetronics emergency battery backup unit.

## DIMENSIONS & WEIGHT

EMBB	LENGTH	WIDTH	HEIGHT	WEIGHT
EB40P	12.32"	2.48"	1.51"	2.77 Lbs.

## FEATURES

- Provides 90 minutes of emergency light during power loss
- Input VAC: 120-480V
- Automatic monthly self-testing
- Manual testing via remote control (optional)
- Compatible with dimmable fixtures with 0-10V
- ETL approved for damp locations
- 50,000-hour rated life
- 5-year warranty
