LiteSmart

Wireless Lighting Controls from Litetronics
## Controlling Litetronics LED Smart Fixtures

LiteSmart
by
LITETRONICS®

✔ Easy commissioning
✔ Easy grouping of fixtures and scene creation
✔ Energy saving daylight harvesting and occupancy sensing

LiteSmart enables total management of your smart fixtures via iOS or Android device.

» Total control over your lighting system – wireless commissioning

» Intuitive and simple interface

» On/off capabilities

» Dimming

» Zoning and grouping

» Custom scene creation and time scheduling

» Further energy reduction via occupancy sensing and daylight harvesting

Our easy-to-install PIR sensor means LiteSmart is compatible with a wide range of our products, from panels to high bays to outdoor fixtures and more.

Wireless Occupancy Sensor

AC Powered Wall Switch

Wireless Wall Switch

LiteSmart makes it easy to build and control fixtures and scenes for optimal energy use and comfort.

Network Capabilities

- Unlimited admins and guests can be added to each network
- Each network supports up to 100 fixtures
- Individual fixtures can belong to up to 32 groups
- Up to 127 scenes can be created from one network
- Up to 10 switches can be created from one network

SCR054 Commissioning Tool

Our SCR054 commission tool is a wireless, hand-held configuration tool that streamlines the installation and setup process.

Bluetooth Button Battery Powered Wall Switch (BCS03)

- Bluetooth network enables switch to be linked to one or more light groups via LiteSmart App
- Up to 3 scenes rotation
- Easily retrofit existing wall switches

7 Button AC Powered Wall Switch (BCS05)

- Bluetooth network enables switch to be linked to one or more light groups via LiteSmart App
- Manual On/Off/Dim
- Up to 4 scenes control of any connected load

Elevating facility controls with LiteSmart helps your clients save money and energy — and helps you grow your business.
